BETTER LUCK NEXT TIME. Cuban Expedition of General Collage

Tampa, Fla., Dec. 9.—The long pre- Made by Sultan to Induce Said pared expedition of General Enrique College has temporarily disbanded. It was composed of 116 men, and was to have carried to Cuba 100 Remington carbines, 400,000 rounds of ammunition. one 2-pound rapid fire Hotchkiss gun with 1,000 rounds of ammunition, many machettes, dynamite and other powerful and secret explosives. The men who formed this band have been encamped on various keys on the southern coast of Florida for the past 90 days.

the artillery, descried from the camp the latter part of last week. All the baried munitions were then removed owing to Sollivan's movements. Shortly after his disappearance the Spanish consul in Key West was informed and cutters left Tampa and Key West simultaneously for Cape Sable, where the camp had been. The searching party found nothing, although they em. Senate Sessions Will Be Brief and Party

Caucuses Will Be Held. WASHINGTON, Dec. 9 .-- The probabilities are that the week in the senate next week will be given up largely to cancusing by all parties, and that the senate daily sessions will be brief, with little effort at legislation. The introduction of bills will be continued, though no work of consequence can be done until the committees are filled. There is nothing on the calendar except two speeches, one by Senator Morgan, announced for today, on the Bering sea question, and the other by Senator Cullom on his Mource doctrine resolution. It is understood that Senator Morgan will pay his respects to Ambassador Pauncefote and Lord Salisbury.

in the House.

The house program this week is a dreary waste. Until the committees are appointed the machinery of the house is blocked, and nothing can be done save by unanimous consent. Auy resolution to it might be presented, and it is in this form that the sensations that agitate the lower branch of congress are usually spring, would go down before a single objection. For this reason no attempt will be made to do any: thing until Speaker Reed announces his committees, which he now expects to have ready at the end of the week. avention, including the carrying There probably will be but three brief sessions this week.

KENTUCKY SENATORSHIP.

Aspirants For the Honor on Hand and a Hot Fight Is Ou.

FRANKFORT, Ky., Dec. 9.-Now that the legislature is made a tie politically by the Democrats re-electing A. J. Carroll at Louisville Saturday, the aspirants for the senatorship to succeed Senator Blackborn are here with their managers and a very hotly contested fight is on. Governor-clect Bradley arrived this morning by special train from his home at Lancasier. After his inauguration tomorrow it is stated that he will be an important factor in the senatorial conw YORK, Dec. 9.—Three men test that is pending before the legisla killed and two more were injured ture, and it is generally conceded that the governor-elect favors Congressman fore there was a cessation of the bloody York and New Haven railway in sful campaign in the state for the Republicans.

IN THE FIRST DEGREE.

Dr. Erastus Dillion and Curran Dillion Indicted For Murder.

WASHINGTON, Ind., Dec. 9.-The Pike county grand jury has returned indictments against Dr. Erastus Dillion and degree. Curran Dillion got into a fight with Alex Hanry, a saloon man of Otwell, when his brother, the doctor, appeared and shot Haury to death. Fred Reisler interfered and was also shot and killed.

FRANTIC EFFORTS

Fasha to Return.

HE PREFERS PRESENT COMPANY.

Extra Guardship Onestion Still Unsettled and the Willy Turk Seems to Be au Adept In the Art of Evasion-Sultan Gives Russian Ambassador a Private Audience -- The Sivas Massacro.

CONSTANTINOPLE, Dec. 9.-The situ-Turkish governments. Opinion continues divided as to whether the delay in taking any action to enforce the demands is due to a fear of causing a fanatical outbreak against the Christrans by the Massulman subjects of the sultan or to a dread of a clash ensuing between the powers themselves.

The reception yesterday by the sultan of M. Nelidoff, the Russian ambassador. in private audience, awakens the usual amount of speculation as to the true relation of Russia to the situation, and the extent of her agreement with the views of the powers. The flight of Said Pasha and his refuge in the British embassy are the subject of the most sensational interest, and the most frantic efforts made by the sultan to induce him to leave and return to the Yildiz palace indicate his fear either that he has lost the most powerful intermediary that he could hope for between himself and the powers in evading the uncomfortable demands they make upon him or the plost dangerous adversary he could fear having in counsel with the

That the sultan lives in a state of con stant apprehension of his life was indicated by his demeanor during the course of the ceremony of the Solamik on Fri-day, which involves the departure of the sultan from the walls of the palace and his appearance in public for a sort of review of the troops, attended by many high officials, followed by prayers at the mosque. On Friday, as the suitan was quitting the mosque, a man attired as a Turk, bearing a petition, forced himself through soldiers to the sultan's carriage. The sultan was seen to become much agitated and deathly pale, but the man was promptly arrested and hustled off to prison without having accomplished any harm to the sultan's person. Explicit instructions were again received by all the ambassadors to justed on the admission of the guardships, but, as has been stated, without

effecting any change in the situation. So persistent has been the pressure upon Said Pasha to leave the British embassy and upon the embassy to re-linquish him that all palace officials are now excluded from there except one of the palace steaks whom the sultan has sent, and who vainly tried to induce Said Pasha to relent and return to the

The sultan has protested to the powers against the exclusion of his messen gers, but the other ambassadors support Sir Phillip Currie in his position. The report that they advise Said Pasha to again accept the position of grand vizier has proved unfounded.

Authentic details have now been re-Nov. 12 and continued for a week folmenians and 10 Turks were killed be-

SUNDAY BLAZE

Chicago Laddies Put In the Day Fighting a Stubborn Fire.

CHICAGO, Dec. 9.-The firemen in the down town district put in all day yesterday fighting a stubborn fire that caused a loss of \$200,000. The 5-story brick and stone front building at 250 Carran Dillion for marder in the first and 252 Madison street, owned by the Seipp estate and occupied by H. Wolf & Company, dealers in general merchandisc. was completely destroyed. The adjoining building also suffered to a

large extent. A heavy firewall between the two buildings prevented more serious re-sults. The origin of the fire is un known. It has evidently been smont dering for a long time and had gained much headway by the time the fire de nartment arrived. John Dore, a hook and ladder man, was severely burned He was in the alloy when the walls gave way, and was completely covered with burning embers. Wolf & Company carried about \$180,000 insurance. Their stock was valued at \$750,900.

Chinese Raitroad Concession.

PORT TOWNSEND, Wash., Dec. 9 .- A concession from the Chicese government to build a line of tailroad from udewater to Peking has been obtained by a syndicate of American capitalists. The road will be about 100 miles long. and will tap a valuable coal mining dis trict

Will Get no Sympathy From Widows. Atchison, Kan , Dec. 9.-Richard C. Meade, the insurance swindler who was recently convicted of misappropriating nearly \$30 000 entrusted to him by

widows and others, was taken to the

penitentiary at Leavenworth to com-

mence his sentence of three years.

HARRY HAYWARD'S CURSE Burled at His Brother Adry, Who Called to Bid Him Farewell.

Missespolis, Dec. 9. - "May the Cavalry at Fort Bayard Ordered curse of God fall on you and yours and allow me, from the minute I drop from the scaffold, to haunt you day and night until your death. Then I will welcome you on the brink of hell with a red-hot

iron.'

These are the farewell words of Harry Hayward to his brother Adry. He hurled them at the latter as he descended the stairs leading to the tier in which the prisoner is confined and passed through the iron doorway to the outer CONSTANTINOPLE, Dec. 9.—The situ-tion here on the question of the extra earth, and such the murderer intended guardships of the powers remains utit to be. Adry was as calm as the prischanged and continues to ofter a tribute oner was impassioned. He was unto the powers of delay and evasion of moved by the anathemas except toward oriental diplomacy as practiced by the pity. His was the brotherly affection, Turkish governments. Opinion continyou, Harry; good bye, Harry," which elicited the remark quoted above.

CORONER'S VERDICT

In the Recent Terrible Cleveland Vinduct Accident.

the coroner has decided upon his verdict in the recent viaduet accident. Motorman Rodgers of the car which pluuged into the open draw is held blameless. It is said the coroner also exonerates the bridge captain, holding frontiersmon and Indian fighters. that the testimony showed the gates were closed and the danger lights in place.

This will free the city from blame. It is also said that the verdict will place the blame on the conductor of the car-Edward Hoffman, who met death in the accident, for the testimony showed that the conductor opened the switch and signalled the motorman to come Therefore the motorman believed that everything was all right.

ALASKA MAIL ROUTE.

Indian Takes a Contract to Carry Correspondence to Fort Cudalit.

PORT TOWNSEND, Wash., Dec. 9 .-James Jackson, rn educated Indian who is to personally carry the mails from Juneau to Fort Cudahy on the Yukou river, has arrived on the steamer Willapa. He came down to secure 20 or 30 several years. strong dogs to pull the sleds across the mountains to the Canadian postoffice on Forty Mile creek. This service is merely a private enterprise, being maintained by miners, who pay 50 cents for each letter. The Canadian government guarantees \$550 for each of two round trips. This is reckoned as being a most haz-ardons journey. Several miners in the past years have lost their lives in trying to make it.

An Editor Caned.

WESTON, W. Va., Dec. 9.—For some time past the Weston Independent, of which paper R. A. D. Hall is editor, has been publishing charges against the management of the State Asylum for the Insane located here. Saturday afternoon Superintendent/Crumbacker met Editor Hall on the street and thrashed ure. It falls to one side continually, his him unmercifully with a caue in the neck being too weak to support it. There presence of quite a drowd. Serious trouble is now believed imminent.

Should Have Succeeded.

LONDON, Dec. 9,-A sensational attempt at a double suicide was made on Saturday night at the Grand hotel by Charles Galloway of Maidavale and his ceived of the Sivas massacres. They eister-in-law, between whom a laiason show that the slaughter began on has existed. Both of the victims have serious revolver wounds and it is belowing. It is known that 1,200 Ar- lieved are not likely to recover. They appear to be well connected.

AT THE CHURCHES.

SUNDAY WAS A DAY OF LARGE AUDI ENCES.

That Goes With Large Attendances-The Subjects of Sermons Ably and Eleganni-

There was a big attendance at the Presbyterian church Sabbath morning. 17:15-16, "I pray not that thou should take them out of the world but that it. thou shouldst keep them from evil They are not of the world even as I am | wasn't satisfied with stunning the giant not of the world."

The speaker discussed the question of the christian's relation of the world he lives in and said that it was God's will that christians should be in the world for a time but kept from evil that He might take all christians to heaven as soon as converted but He leaves them in the world for two rea-

First, for the world's sake, and secondly, for their own sakes. They are to be witnesses for Christ and the truth . They are the salt of the earth and the leaven which is to leaven the lump.

The usefulness of salt and leaven de pends on two conditions: First, upon their being different from the material in which they are to be placed, and secondly, upon their coming into contact with that material.

The same is true of christians of the world; they must be different from the world and yet be in touch with the

They are to be in the world for their own sakes and for the development; of character. Character is best matured not in the seclusion of monasteries and cloisters but by successful resistance of evil. Though christians are in the world they are not of it; they have not the spirits or motives of this world Efficiency and happiness as christians depend upon their being not confirmed to this world.

The last point brought out by the They must be identified with its busicarry the spirit of christianity into all these relations.

*Among other things the speaker said business men could advertise without lying.

In the evening Mr. Thomas took his text from I Samuel 17:50-"So David Philistine and slew him."

He said that David gained a victory over Goliah by using weapons which he was skilled in using. That the stone was not directed supernaturally Epworth M. E. church. but that David was a practical slinger | J. G. Evans spoke at the Y. M. C.

used, who have skill in the particular Mr. Evans' talk was a highly enjoyable line in which that skill is to be dis-

He then applied the lesson especially to young people by showing the necessity of improving their opportuni-'can't use an ignoramus or an idler."

"David got the victory by his faith in God. There were many slingers who could throw as straight as David but they lacked his courage and faith. A Rev. Thomas took his text from John man must not only have the skill but also the faith and the courage to use

THE MUSICAL-LITERARY CLUB.

Chopin Evening Was Enjoyed at th Fall Meeting of the Club.

delightful program of Chopin's music was given by the Musical-Literary club on Thursday evening last at the residence of Mrs. W. L. Warner.

The club has four program books of this eminent composer, consisting of his choicest works. These compositions asks for them, everyone tries to play them, but not always with the best resuit. They need the analysis and charsuch study but very little advancement can be made, as most of these composi- have been made since the chamber was ler of South Carolina for nearly 13 tions are resplendent with a race dignity of style, exceeding interest and

surprising gramleur. It is the feel n; which overflows in all his works which has rendered them known and popular, feeling of a character eminently romantic, subjective. individual and peculiar to their author Chopin's creative genius was imperious, fantastic and impulsive. It is of such creations that makes his works desirable for study and presentation.

The program rendered by members of the club at their last meeting was of a highly interesting character Quite a number have signified their intention of joining the club, so as to enter into the study of the master works of the thirty eminent musicians.

Miss Florence Durfee was the happy winner of one of the four beautiful Chopin program books. The time and place for the next meeting will hereafter be announced.

HAD TO AMPUTATE.

Emanuel Weise Loses His Atm-Aged Lady's Death.

Califonia, Dec. 9 -Last evening Dr. W. J Kelly, of Galion, and Dr. Baker were called in connection with Dr Stone in the case of Emanuel Weise, who had his arm filled with shot a few days ago, of which mention was made in the STAR. On examination the doctors found that gangrene bad set in and the only thing to be done was to amputate the arm, which was done by Dr. Kelly.

verthing along the streets and in his own house. On Friday, Nov. 23, Webster called at Dr. Packman's house and invited him to come to his fecture room at half past i that day. It stems that Dr. Parkingu accepted this invitation, for he was never cen alive again.

That day Professor Webster lectured from 12 to 1 and was succeeded by the celebrated Dr Oliver Wendell Holmes, who fectured from I till 2 . A number of people who knew Dr. Parkman by sight claim that they saw him approach the medical college about I o'clock that day. The evidence of these people was not cer-al Excitement In 1849 on Account thin, and the person on whose statements the further movements of Dr. Parkman were based was the servant who gave him Professor Webster's message.

After Dr. Holmes had closed his lecture

that day the junitor of the building started to put the various rooms in order. For the first time to his memory he found all the doors leading to Professor Webster's laboratory beked. He could bear somebody moving about inside and water cut-

ARTICLES.

ning into the sink. At half past 5 o'clock Professor Webster was seen to come down rom his lecture room. He went directly to his home at Cambridge, where he was a little before 6 o'clock, and took supper with his family. He escorted his two daughters to a house party near by, and then he and his wife went for a visit to Professor Treadwell's. There were a number of noted persons present, all of whom remembered afterward that Professor Webster's manner was quiet and untural, and that he entered with great heartiness into the conversation and entertainments of the evening.

As Dr. Parkman did not return to his home Friday evening his family were alarmed. On Saturday a search was begun. That day the janitor of the medical college, Littlefield, was puzzled by finding some doors locked that he had left unlocked and some unlocked that he had boited While he was wondering about this Professor Webster arrived and told the janitor to light a fire in the laboratory stove, and that he would not need him for the rest of

In the meantime the Boston police were searching for Dr. Parkman, and a description of his person was published in all the afternoon papers. That evening Professor Webster reached home at the usual bonr. and on this occasion he brought with him copy of Milton's "Penserose," from which he read to his family after supper.

The next day, Sunday, Professor ster went to Boston, and met Mr. Blake. a nephew of Dr. Parkman, with whom he sympathized on the disappearance of his uncle, and described what was said in his

last interview with him.
On Monday, Nov. 26, public excitement and reached a feverish pitch, and not only Boston, but all New England and the country where news could reach were stirred over the story of the missing man. It was generally supposed that he had disappeared because of some sudden aberration of mind, and a reward of \$3,000 was offered for information that would lead to hidiscovery. This continued for several days. during which time it was noticed, because it was unusual, that Professor Webster re mained much alone in his laboratory, keep ing the doors locked, but in the meantime he had admitted as visitors the brother and neabow of the missing man.

Nov. 27 was. Thanksgiving day, and in the morning, with his customary force bought, Professor Webster gave Little field, the jamtor, an order for a turkey.

At 10 o'clock that night the police, ed by the janitor, made a search of that part of the college devoted to the medical They I worked at Professor Web ster's room, and to their surprise found him in. They were admitted. The officer in charge told Professor Webster, whom he did not suspect, that their orders were to sevent the medical school thoroughly. The professor said be would be glad to help him, but asked that they overturn nothing which would interfere with his lectures of

the following day.

The officers were about to enter a small room when Professor Webster, with a

staile, said: "You can go in, but that is where I keep my dangerous articles, and I warn

They then went down to the laboratory. and as they fleared Professor Webster's private closet the officer in charge asked what it was. Before the professor could explain the sautor had told the purpose of the apartment and had produced the ker The door was opened, and one of the officers noticed a teachest standing on the floor. No comments were made, and the officers departed, while Professor Webster went home and that evening played whist with his family

On the morning of Nov. 28 Professor Webster came carlier than usual to his rooms at the college, and the janitor could our that he seemed to be very busy incid. while, on trying the doors, he found their to be locked. The janitor, who seems to have been a shrewd, observing man, discovered, by feeling the walls, that the furunce fires in the laboratory were botter than he could see any reason for.

Finding he could not get into Professor Webster's rooms through the ordinary avenues, the junitor, waiting till Webster had gone, succeeded in making an entrance through an outside window. Although he did not suspect the processor of any connection with the disappearance of Dr. Parkman, he at once began a therough examination on his own account. His attention was attracted by a number of blood stained splotches on the floor of the laboratory. Yet these impressed him so little that he went to a dancing party that

night. Littlefield went home, but not to sleep. His mind troubled him. He had read the sensational stories in the Boston papers. and he was impressed with the Idea that s murder had been committed in that part of the college of which he had charge.

Littlefield, who never for an instant sus-

sected Professor Webster, talked with him about the missing man, whom he now be-lieved is 's murdered. Webster laughed down his fears, assuring him that Dr. Parknian would soon turn up all right. There were no lectures on Saturday aft. | ments Turner is a lawyer.

ernoon, and Littlefield, having the medical rooms to himself, began an investigation on bis own account. While he was at work he kept his wife on watch. In this investigation be with a crowbar broke through a closer wall at the bottom of a vault, where dissected remains were de posited, and there he saw the butchered remnants of a human body, consisting of a pelvis, a thigh and a portion of one leg be low the knee. The janitor notified Drs. Bigelow and Jackson and the police. These men appeared at once, and among the re mains were found three towels, each marked with the initial "W," which Lifthefield recognized as the property of Pro-

fessor Webster. It is unnecessary here to tell how step by step the chain of evidence fastened about Professor Webster. In a fit of uncontrol lable anger be lead killed Dr. Parkman after the latter had charged him with be

ing a robber. When he realized what he had done, the thought of his family and of his own preervation imposed him to destroy the body and give the impression that Dr. Parkman had committed suicide in the waters of Hos ton harbor.

It is not a little remarkable that this man, a surgeon and a chemist, should have done his work so blunderingly. It is true that for a short time, by reason of his high character, he succeeded in diverting sus steron from himself, but as soon as sus picion was turned in his direction, the avilence came crowding in with overwhelming force. A human body is not a large Mair, and had be placed it in the furnec at might have been cremated and disposed of at once, but in his awful anxiety he placed a part here and a part there, and deection was inevitable. Even the teeth of the murdered man, which had been filled with gold a short time before, were found in the furnace, and the dentist who did the filling identified the fragments as a part of Dr. Parkman, Professor Webster was at once arrested,

and his trial and conviction soon followed. He was sentenced to death, and his execution took place on Ang. 30, 1850.

Before his death Professor Webster made full confession, which we have every reason to believe was truthful, but the most remarkable thing about it is that the evidence of the detectives and experts was according to his statement, wrong in every particular, save that he committed the ALFRED R. CALHOUN. murder.

MATT PINKERTON ON CRIME.

The Detective Gives His Views at a Meet ing of Chicago Ministers.

Mait Pinkerton gave a detective's view on criminality at the last monthly meet ng of the Chicago Ministers' association He said in part:

"Awful deeds possess for many a peculiar and morbid fascination, and around he crime of murder-rightly considered the most believes of all those interdicted by the laws of God and man-many threw a glamour of false sentimentality that is not extended to other and similar offcuses. A wife murderer under sentence of death s often supplied with flowers and dainties women who would hold up their hands in hely horror at the sight of a boy arrested

for picking a pocket.

"Most children early manifest a decided disposition to destroy animal and insect Many a fond mother's heart has thrilled with dismay at discovering her beloved infant prodigy in the act of pulling off the wings of a fly or decapitating toad. If these early manifestations of a desire to slay are not chargeable to an in herent germ or impulse, how are we to ac-Something of the same kind is observable in matured manhood. although here the exceptions are more no

MATT PINKERTON READS TO THE MINISTERS merous. No end of animal life has been wantonly taken, not for the purpose of procuring food or raiment, but for the mere pleasure of killing.

"The most popular works of fiction have almost invariably been those in which the interest turns upon the solution of a dark murder in estery. Great hovelists have appreciated this public domand, like Dickens, Suc. Hugo, Kingsley and Dumas, and written, doubtless with pleasure, to supply it. We turn with shudder and heartache from the ten line account of how a poor workman had been caught in a machine and horribly mangled, and engeriy read-fairly revel sometimes-in a two column account of a double murde

"I have always insisted that the prope time to reform criminals is before they be come criminals—that is, before they have lost all good impulses and made wrong doing their second nature. In my estima tion this applies to murder as well as to esser crimes. We are so familiar with the crime of murder from personni observation, grew-ome stories and detailed ac counts, with which the duily press literally teems, that we have come to regard it as a matter of course—a detestable and unnatural thing surely, but something to

be constantly expected. "If people were brought to appreciate the fact that they carry within their breasts the seeds of this fearful crime. which envy, anger, just and all other evil tendencies may cause to germinate and grow, they would be far more inclined to curb those dangerous impulses, and, while saving themselves from the greater danger, build up a more perfect character and present in their lives a more acceptable offering to their Maker.

Hi- closing injunction, "Take care of the children, and the men will take care of themselves," was well-received and ap-

A LITTLE WARCLOUD.

KING PREMBI DODGED WHEN HE SAW IT COMING.

At First the Monarch of Ashanti Scorned Lord Salisbury's l'itimatum, but Weakened When He Saw the British Preparations For War. If what we hear from Ashanti is

true, the bloodthirsty monarch of that depraved people deserves a thorough thrashing, and a few days ago it seemed to be a settled thing that he would get it. Now, however, the bloodthirsty monarch reconsiders the defiance he had sent to the British government and concludes to consider the ultimatum recently sent to his capital by Lord Salisbury Ashanti has been slightly known to the civilized world for 200 years, but

few white men are acquainted with the country or its people. In 1873 Sir Garnet Wolseley made a dash into the region and attacked King Koffi Kalkalli, then the monarch, who fled from his capital, Kumassi, at the approach of the British forces, whose triumph was signalized by burning the town. After that the king sued for peace, which was accorded on condition that he should sulmuit to a pecuniary penalty for his repeated invasions of the Fanti country, which lay within the British protectorate and because of which the expedition

COLONEL SIG FRANCIS SCOTT AND OFFICERS was entered upon. Besides, he had to promise to cease from the wholesale destruction of human life.

A plain story of the frightful killing of the men of Ashanti by the orders of the king of the country reads like the most exaggerated product of an insane imagination. Not far from the town is what is known as the "forest of death." It is a "perfect catacomb of skulls and bones. 17 Whoever displeases the king is sent there to be decupitated. Whenever a rich man or a man of prominence dies, numbers of his relatives are beheaded in like manner, and sometimes 40 or 50 persons are killed there in a single day. Those who saw this awful place in 1873 say there is not language in existence fitly to describe its horrors. There are at all times many bodies in a state of partial decomposition, and from the place there arose, 23 years ago, such dreadful stenches as to make some of the hardy white soldiers obliged to endure them ill for weeks.

The Ashanti country extends from east to west more than 500 miles, but just how large it is is unknown. Its popularion is variously estimated at from 5.000,000 to 10,000,000. The country is fertile. It is extremely rich in gold. In fact, some of the mines are said to be among the richest in all Africa, and there are whispers that the coming expedition has been projected chiefly for the purpose of enabling Englishmen to control these mines. Most of them are now worked for the benefit of the king.

For an African kingdom, ruled by an absolute despot, Ashanti has a tolerably well organized state of society. The Song." She has published a number of 29,000,000 miles on Dec. 18, at which country is divided into districts, each | volumes of verse, among them "Out of being ruled by a prince who is absolute and receives his rank in a hereditary manner. He may cut off as many heads as he likes, and, in fact, is absolute. master of the inhabitants of his district, but in turn is himself completely at the mercy of the king and liable at any time to lose his own head. In time of peace these chiefs collect the royal reveune; in time of war each commands a section of the 'royal army, which is much better organized than those of the surrounding tribes.

The present ruler, King Kwaku Dua, sometimes called Prembi, who is only 22 years old, has abrogated most of the provisions contained in the treaty drawn up between his predecessor and the British in 1873 and beyond a doubt has revived the old custom of wholesale Blaughter. This was supposed to be true as long ago as 1853, when it was first proposed that a British resident should live in Kumassi. To this proposition the young king dissented with great emphysis, and somewhat recently the governor of the Gold Coast sent to the say age ruler an ultimatum on behalf of the British by the hands of two officers. Captains Cramer and Irvine, escorted by a force of houseas, or native west Af

ricans.
The king treated the ultimatum with contempt, and Colonel Sir Francis Scott, inspector general of the Gold Coast constabulary, began immediate preparations for an armed expedition to Kumas si to enforce the terms of the demand Sesing these warlike preparations, the savage king curbed his royal temper and concluded to comply with the very rea sonable requests of his great and good friend Salisbury. So the Ashanti warcloud has blown over, and the Scott ex pedition that started to fight will remain to feast, while King Prembi will pay the cost.

Making Artificial Pearls. The French artificial tearl is produced

by boring a hale in the shell of the over ter and introducing a small bit of glass. which the animal covers with "nacre. or mother of pearl, to stop the irrita tion. Such pearls are flat on one side beturally.

Satelle A. Gibson Inherits a Fortune and a Handsome Estate In England. Estelle A. Gibsou has inherited a for

MRS. GIRSON.

her hands the property willed her. Mrs. Gibson was born in Liverpool 29 years ago, and her parents, who were frish, left her practically nothing except a rich, musical Trish brogue. She was one of 11 children, but all are dead except herself. At the age of 15 she was married, and five years later her husband died, leaving her with three small children and very little money.

Shortly after the death of her hisband Mrs. Gibson's uncle, a wealthy British barrister named Charles Russell, invited her to come to Eugland. Two of her children had died, and with the third, a bright little girl, she crossed the ocean. Barrister Russell had made a fortune and was passing the declining years of his life on his lovely estate | blundness was due entirely to Schlatin Essex. He became so attached to the little girl that he willed her his entire fortune. Mrs. Gibson remained with him but a short time, preferring to support her child by her own efforts rather than to live at her uncle's expenso. She returned to America and became a trained nurse.

About this time the little girl died, and Mr. Russell was heartbroken over the occurrence. He declined steadily in health, and died of paralysis Oct. 29, leaving his entire fortune to Mrs. Gibson. His estate in Essex embraced 24 acres of lawn and tree shaded land, and is one of the most valuable holdings in the neighborhood.

The first resolve Mrs. Gibson made upon hearing of her good fortune was to put an elevator in the College of Physicians and Surgeons, Chicago, so that in the future the nurses would not wear themselves out climbing the stairs. She has also selected a site for a surgical hospital of her own in Chicago, where the poor who shrink from going to the county hospital may be treated.

IGNATIUS DONNELLY'S SISTER.

"The Morning Star of Catholic Song" an Her Work With the Pen.

Miss Eleanor C. Donnelly, who has been invited to read an original poem at the Atlanta exposition, is a sister of Ignatios Donnelly and has often beet

Bouquet." Her "Jubilee Hymn" was Bougaet, ' translated into Italian and German, and special music was written for it. In all The wind is hushed; the darkness grows; Miss Donnelly has published over a dozen volumes of poetry and prose, and her poems have often been classed in

ment with those of Adelaide Proctor. The Atlanta exposition is not the first important event which Miss Donnelly has been asked to commemorate in verse. When the centennial of the adoption of the constitution of the United States was celebrated in Philadelphia in 1887, sho was invited to read an ode before the American Catholic Historical society of Philadelphia and did so. In 1892 she also wrote the Columbian ede for Philadelphia's commemoration of the quadricentenuial of the discovery of America.

The Banana In the West Indies. The banana is fast superseding the

engar cane in the West Indies. Its cultivation pays, where that of the cane did not. The conquest the banana has made over the appetites of the races who a few years ago had never tasted it is and of less value than those produced quite as remarkable and far more rapid then that formerly made by the potato.

Lycsight Said to Have Been Restored to John James of Texas.

Marter of fact observers of the singular craze in Denver over the healer Schlafter have said that it was almost impossible to trace in a satisfactory manner any of the alleged cures. Dozens of cases were talked of every day, but when reporters or medical investigators attempted to find the people alleged to have been cared of divers ailments their hunt ended in failure. Somebody had been told of the case by somebody else, and so on indefinitely.

Circumstantial details of one alleged cure are, however, reported in several Texas and other southern newspapers. It is affirmed that John James of Alvarado, Tex., chairman of the Johnson county free silver Democratic executive committee, returned recently from Denver, where he had been completely healed of partial blindness by Schlatter. According to these reports, James had

been almost blind for over 30 years from acute gra-mlation of the evelids, and for several years had been unable to read. He heard of Schlatter and went to Denver to see him. He took his place in the line and shook hands with Schlatter and was treated by him, and declares that straightway his affliction began to leave him and his eyosight to improve. In a few days he could see as well as before the disease affected his eyes and says that to prove this he went to the office of the Denver News and read a column of matter set in solid agate type. When seen a few days ago, Mr. James doclared that the cure of his ter's influence. Among those who have seen and investigated Mr. James' story is a correspondent of the New Orleans Times Democrat, who was apparently convinced of the truth of the man' story and the genuineness of the cure.

THEY WANT OUR TRADE.

Japan Witt Sett Us Bioycles For \$12 and Other Things In Proportion.

The San Francisco Daily Report the other evening published a story calculated to startle American manufacturors. The article says that Japan is about to invade the United States with the agents of her factories, whose ability to produce articles of necessity more cheaply than the rest of the world can no longer be ignored. A few weeks since the agent of a peaceful manufacturing and commission house, whose headquarters are in Kobe and Hiego, arrived in that city, and offered such inducements to San Francisco merchants that they were compelled to place large orders with the oriental firm. A canvass of the San Francisco mercantile trade reveals the fact that an unprecedented cut in almost every line of staple goods has seen made by the Japanese bidder.

Buttons by the great gross are delivered duty free at a fraction less than the actual cost per gross of the American article. Bioveles, guaranteed equal to the best high grade, are listed at \$12. Japanese matches are to be laid down at a price which is destined to close every match factory in the United States. Sashes, doors, blinds and all kinds of wooden ware can be delivered duty paid at 30 to 50 per cent less than the wholesale prices of local manufacturers.

After placing huge orders the agent left for the east, where agencies will be established in New York, Chiengo, St. Louis and elsowhere for the purpose of underselling American and European manufacturers as fast as possible. -New York Sun.

Our Celestial Visitor.

The comet discovered at Lick observatory, Culifornia, on Nov. 17 by Mr. C. D. Perrine is now about 84,000,000 miles from the sun. The distance will decrease and reach a minimum of about ime its angular distance from the poin where its path intersects the ecliptic be visible with telescopic assistance within a few weeks.

Unfortunately, however, its approach to the sun will bring it into the morning twilight, and the difficulty of ob servation will be increased thereby. It is now I'e times as far from the earth as the sun is.

Solomon's Mines Eclipsed. The goldfields of Cripple Creek, Colo. are attracting considerable attention of uct, which is estimated at \$1,000,000 mouth. The total value of high grade ores mined during October was \$90.

"The Isolation of England."

The fainting mean is lest in flight. In ath lifts a sember hand and throws His clouds across the laws of night.
With parted lips and haggard stare. That strives and strains to perce the glo Each antion cross has in its lair.

And, breathless, waits the coming doors.

Dim shapstess shadows pass like ghosts; Along the trembling earth they feel The distant transp of marching hosts And hear the smothered clash of steel. Till, reaching out for friendly hands.
To guide them through the gloom, they press To where one silent figure stands Sere in left; loneliness. They hard their taunts, their caths, their

prayers.
The snarl of greed, the growl of hate;
They sait upon the cleak she wears Or grasp its bem to supplicate. But still, as though she heard them not. Her anxious eyes are fixed afar Among the clouds, on one pale spot Where ininity gleams a single star.

By that same star she chose her path For every night in vanished years. Though screened by mists of doubt and wrat She sees it this, be if theorem tears. Then, glancing at the fretiti Lorde Who call her now to bend the knee, She lays her hand upon her sword
And turns her eyes toward the sea.

In Our Great Grandfather's Time,

sy, but ineffective. In this century of enlightd cument, we have Dr. Pierce's Pleasant Pellets, which cure all liver, stomach and bowel derange-ments in the most effective

way. Assist Nature little now and then, with a gentle, cleansing laxative, thereby removing of fending matter from the stomach and bowels, toning up and invigorating the liver and quickening its tardy action, and you thereby remove the cause of a multitude of distressing diseases, such as headaches, indigestion, or dyspepsia, bilionsness, pimples, blotches, emptions, boils, constitution, piles, fistulas and maladies too numerous to mention,

If people would pay more attention to properly regulating the action of their bowels, they would have less fre-quent occasion to call for their doctor's ervices to subdue attacks of dangerous

That, of all known agents to accomplish this purpose, Dr. Pierce's Pleasant l'ellets are unequaled, is proven by the fact that once used, they are always in favor. Their secondary effect is to keep the bowels open and regular, not to further constipate, as is the case with other pills. Hence, their great popularity, with sufferers from habitual constipation, piles and indigestion.

A free sample of the "Pellets," (4 to 7 doses) on trial, is mailed to any address. post-paid, on receipt of name and address on postal card.

Address, WORLD'S DISPENSARY MEDI-CAL ASSOCIATION, Buffalo, N. V.

A Painter Takes Up Sculpture.

Surely we might think that Gerome's

ambition was satisfied, and that he might thereafter rest quietly, painting when the spirit moved him and spending his declining years in the happy coutemplation of a successful career. Ho was now 50 years of age, rich in worldly possessions, the owner of a handsome house in the fashiounble part of Paris and of a lovely summer home and a chateau on the river Seine, at a charming little town called Bougival. Everything that gots to make life agreeable was his, and yet-it was not Geronie's way to

Sit idly down and say.

The night bath come; it is no longer day. for he felt with the poet

The right hath not yetcome; we are not quite Cut off from labor by the falling light. Something remains for us to do or date; Even the oldest tree some fruit may bear; For ago is opportunity no less. Than youth itself, though in another dress.

The great energy of the master could not be bettled up, and, like Alexander of old, he sighed for a new world to conquer, so he went to work quietly in his studio to study in clay forms and masses that he had heretofore represented in color. In short, he dropped his palette and brushes, and gave all his attention to sculpture. How well he succeeded is a matter of history, for, at the universal exposition of 1878, he received a modal for sculpture and the grand medal of honor .- "A Famous French Painter," by Arthur Hoeber, in St. Nicholas.

Allen's Discovery for Piles.

Allen's Discovery for Piles will cure blind, bleeding and itching piles when all other treatments have failed. It stops the itching at once, cases the soreness, acts as a poultice and absorbs the tumors. It is a new discovery that cures piles. Prepared only for piles and itching and chafing, and nothing else. Ask today for Allen's Discovery. Sent by mail, 50%. Address Allen's Discovery, Box 88 LeRoy, N. Y.

SHARP CONTEST FOR THE REPUB-LICAN NATIONAL CONVENTION. dea dit vor een my sloudder as I

San Francisco Wants It Badly—A Difficulty In the Way-Chicago, St. Louis and Pittsburg the Other Competitors.

Wysmycrox, Dec. 9 = Special; =In a

ew days the national Republican commit-

Already the clans are gathering, and he light for meation of the Republican pre-idential convention of next year bids fan to be one of the most interesting and billerly contested in the history of the The most enthusastic delegation is that from San Francisco, which has crossed the continent with a great store the San Francisco committee to give the emplo of the cast a foretaste of the sort of ! good times and royal entertainment they make there if the committee decides to convention to the Golden Gate. Contrary to the general opinion, San Fran-useo has a chance of winning. The general selict has been that the national committee would never take the convention 2,000 rules from the center of the population. But stranger things have happened. In have been hard at work. Four years ago they made a fight, but gave up at the last moment. On that occasion they secured many pledges of votes for the 1896 convention, and all this capital they now propose to make use of. Recently they have had shrewd men traveling through the west and south securing pledges from committermen. It should not be forgotten either that many of the smaller states and territories he in the far west, and every state saloon he was approached by Zeig, who and territory has a vote on the question of accused him of saying unpleasant locating the convention. The vote of the member from Nevada, counts for as much as the vote of the member from New York or Penn-givania

The Golden Gate City.

San Francisco promises reduced botel ates and reduced railway rates, the latter at I cent a mile, and all delegates to be A strong factor in favor of the Golden Gate City is the desire of a great many people to make a visit to the coast-The holding of the convention could be then made the occasion of a royal junketing tour. For instance, nearly all the newspaper men in Washington, who are regular attendants upon national conventions, no matter where they are held, want the Republicans to meet at Frisco. The opportunity for a great trip across the contieent, going by one route and returning by another, is too good to be lost sight of

the Frisco boomers have to contend against is their inability to provide facilities for the great newspapers of the country. The correspondents could be taken care of well chough, as could every one elso, in the palated hotels of the coast city, but they would be in a great stewall the time about their press dispatches. Unfortunately there are only seven wires from Frisco to the east. The Western Union company has five wires, some of them not very good, and the Postal Telegraph company has two wires. The lines of the former company pass through the snow-heds of the Sierra Nevada mountains, while the Postal wires take the southern but longer route. These even wires could not handle a tenth part of the disputches which the special correspondents would wish to file. If there were 20 wires leading from Frisco to the east, then that city might have a chance.
It has been suggested that a city as enterprising as Frisco might have special wires strong for the purpose, but the telegraph people say this would cost so much money that even the generous boomers from the oast oury would stand aghast when called upon to pay the bills. Besides, time is a serious element. San Francisco could not prodently engage to pay all or any part of the cost of new wires without a certainty d getting the convention, and the telegraph companies say they could not string new wires in six months—all the time they would have between the inceting of the

Other Competitors.

But for this obstacle San Francisco would probably win the convention. Chi-cago, St. Louis and Pittsburg are the oth-ried all through the war. The man er principal competitors. Clucago doesn't seem to be very anxious to get the convention, but her chances are good. She has the powerful support of Mr. Platt of New York. He is histerly opposed to both San Francisco and Pittsburg. His friend senator Quay, on the other hand, is earnestly in favor of Pittsburg. The central location of this city is much in its favor, but the insiders say the hotel accommoda tions are not quite adequate to handling the great crowds which attend national conventions. The St. Louis people have not made much noise, but they are understood

to be in the race with vigor and cash A peculiarity of the situation is that the eny which wins the convention must be prepared to pay red only all the expenses of the convention used; but to pay off the debt which has hung over the national ominities since the campaign of 1892 happen to know that a part of this obligation, a considerable part, is due Quay and Clarkson and other members of the old committee who alvanced money to the purty when it was in sore need, and I do not suppose any one will criticise them for wanting to get their ham back

A Serious Inconvenience. At this writing it looks as if San Francisco wonla make a gallant struggle, but ful on account of the lack of telegraph wires and the inconvenience that would be aused the newspaper press by the differcace in time between the coast and the eastern cates. That difference amounts to two hours between San Francisco and Chicago, and three hours between Frisco and the cities on the Atlantic scaboard. In ismuch as mark all the morning dathes in large cities go to press with their first editions about I o'clock in the morning, and the afternoon papers at 2 30 or 3 o clock. it is easy to see that this difference in time is a serious matter. A night session of the convention at San Francisco could not be adequately reported till the next afternoon papers came out, while the afternoon papers would be able to publish but little of the proceedings of a day session. Some one has said that if the convention goes to its a lighter note. A pair of sat a ship papers will have to become afterneon for a mine the Thantacion shoemaker sheets, while the exeming papers will have sheets, while the extrang papers will have for a tring, in range the same sheets, while the extrang papers will have dress, spin, worth and dyed by a bridge dress, and discount and dyed by a bridge dress, and discount and dyed by a bridge dress, and discount and dyed by a bridge dress dres to publish morning editions

to publish morning entions

Chicago as usual appears to have the best bearing the arist cratte man e of the chance to win in the end, though both St. hear - such a poet, proful, little well Louis and Pittsburg will make a good, dong the sof by an hole spun, each,

ret meet until February, and there a great nemers be un income. Such a performance to take the convention putition hitself worlding dress as its

fold hing I was Kirby Smith's daughter

the old man looked as if he would en-

"The women, too," I said, "must

"Well, not so much as the men They

come in, the old ladies who remember

those days and the young who have

been told about it, bite their lips to

keep back the tears, and just as they

leave you man them say something.

Sometimys they are rebelltons, and say,

I declare. I'd just like to have them

fight it all citer again, it makes me so

mad? But generally they are quiet and

tearful and pathetic, and you hear them

say as they past out in quivering voices,

Well, it's a long time over, but some

'And the northern people," Lusked,

what do they think of these old flags

"Oh, most of them are very much in-

erested, and the majority are sympa-

thefic too. Now and then a woman will

come along and be disagreeable. One of

the sweetest experiences I have had was

with a woman from Denver. She came

in and scemed so affected by the thing-

lost any dear one in our army. She cried

over those poor, old patched clothes

there, but she turned to me and said,

No, my dear, my husband was in the

Federal army and was killed at the bat-

the of Chickamanga, but my heart goes

out to all of the blue and gray, for I

know well how both sides suffered.

And she gave me this badge of the Wom-

an of the Grand Aimy of the Republic

"So often," said Miss Kirby Smith,

the old soldiers who own different

relies here will pay the place a visit.

General Bulger, the man who owns that

sword there, called the other day. He

AND MANY ARE NEW TO PUBLIC LIFE IN WASHINGTON.

Some of These Brand New Senators Are Interesting Men-Elkins, Knute Nelson, Tillman sud Wetmore-The Plucky Mc-

Washington, D.e. $10 - \text{Special}^3$ -Ever since the opening day of congress employeeof the senate have been trying to familiar be themselves with the faces of the new senutors. There are a dozen men now occupying sears on the floor of the senate who were never there mutil last Monday Most of their are absolutely new to publ. life in Washington. Of course such old time members of the house as Gear of Iowa, ons are known to every one. So is Steve Fikins, the new senator from West Vir ginia, who used to sit in the house as dele gate from the territory of New Mexico, and who became a familiar figure here while serving in Harrison's cabinet as sceretary But Thurston of Nebraska, Butler of North Carolina, Baker of Kansa-, Bacon of Georgia, McBridoof Oregon, Tillman of South Carolina, Wetmore of Rhodo

features with certainty, especially if you have seen the man but once or twice would never do for an employee of the senate to make a mistake and accost a new senator with anything but the most profound homage. Senatorial dignity will not brook any blurders or any accidental mistaking of a great solon for one of the comsee employees of the senate pecung in at the doors or occupying points of vantage in the galleries, patiently studying the physiognomics of these new statesmen in order to avoid the possibility of mistake.

Some of these bound new sens ors are interesting men - Steve Elkips is always a strong character, and wherever he is, there, you may be sure, are to be some sharp politics and general fine work. E.kins is a great, big bounding boy, full of good nature and kindliness, and, except in slarp trading and sharper polities, as generous as man can be. He has strong friends and hitter enemies A curious coincidence is that with this congress two old friends are reunited in the legislative balls of their country. Twenty years ago Likins and Richard McCormick were the delegates from the territories of New Mexico and Arizona respectively. They were fast friend-Now one comes back to congress as senator from West Virginia and the other as a member from New York

A Scandinavian Scuator. Knute Nelson of Minnesota is said to be

overnor who has just come to the senate Viewed from the press gallery, there is no one to dispute the proposition that Till-man is a striking if not an attractive fig And his appearance does not belie his character, for he comes here with reputation as a fighter that has caused him to be regarded with more than ordinary curresity. Every one is waiting for him to break loose on the administration, and

when he does sail in there is sure to be fun. Senator Wetmore of Rhode Island has the distinction of being about the richest man in the new senate. Probably it is a clear race between him and Brice, now that Stanford is dead. Wetmore is noted also for the blue blood that flows in his veins the first families of bis state. Little Rhode Island has a habit, by the way, of keeping her best families represented in the sonate. The Dixons have furnished three senators, the Spragues two or three, and the Wetmores now have their second scion on the floor of the senate. The new sena for from the smallest state has taken Governor Morton's big house here and will go

Senator McBride's Pluck.

Senator McBride of Oregon is the weakest man physically among the new crop of statesmen, but he is weak in no other way For years he has been a cripple, and at times his his was despaired of. I have heard the story of how he was injured. He was out driving with a spirited horse when some one ran suddenly into the road and frightened the animal half out of his senses. The future senator held to th lines, though he might have jumped with out danger of serious harm, and was final ly thrown violently against a rock and so bally burt that the surgeons have been working at him ever since. McBride mushave true western grit, for in explaining the runaway accident afterward he said. I would have jumped and let the horse run and smash things to his heart's content, but he was a horrowed horse lent me ly a frand, and I knew how proud my friend was of him. It did not seem to me had any right to abandon the poor beast to his fate just because he had chanced to get scared. Besides, my cousin was to the carriage with me, and I was not sure that ic would be able to jump safely. So I jus

orments of the damned with his broken ones. McBride insisted on paying with a peculiar specimen of rock which a friend ad brought him. There was something strange about this piece of rock. It her vidence of having been in part the handiwork of man, and the future senator kep picking at it with an iron tool. Finally facre was an explosion. The hed was wrecked, the windows of the room, were blown out, and every one supposed the sail man had been killed. But he hadn t ough of fingers had to beautousned, and his nerves were shaken up a good neal, but be so in recovered all the lost ground had been footing with a synamite cartridge which had been buried in the earth for a long time and dug up by some boys.

JUDGE NORRIS, RECEIVED A WIRE FROM NEW YORK SATURDAY.

man Claim on Presentation in New York-It Was Rejected.

Saturday afternoon the State was in possession of the information contained in the following clipping from Sunday's Cleveland Plain Dealer, but undradvice of counsel interested in the case, the same was not used.

It is doubtful if any settlement can Largest variety of ladies' embroid-ered silk handkerchiefs in Marion, 10c, 15c, 19c, 25c, 35c, 40c, and 50c—every ment as made through Judge Norris Saturday was rejected by Scoffeld,

The clipping above referred to reads as follows:

This paper is in receipt of a dispatch from Marion announcing that Dan Babst, Jr., of Crestline, was appointed Ladies' and gents' muillers in beauti-ful patterns at 20c, 25c, 40c, 50c, 75c, 90c and \$1.00. See our muillers before court Saturday morning. John Tod had been appointed receiver by the Summit county court, but Judge Norris held the action was taken without jurisdic-tion. A bitter legal fight will follow. The appointment of a receiver was caused by reason of the indebtedness of the road, which amounts to \$87,000,-

> sult of a claim against the Erie road. In explaining it he said, "These parties held a claim for \$5,500 against the Erie and all they desire is that this claim should be paid. As the Erie operated should be paid. As the Eric operated the N. Y. P. and O. road, they have taken this action. I am advised by telegram from New York this morning that the reorganization committee of the Eric have wired to Judge Norris that they will pay the claim on precentation at New York. This will remove the cause of action and I. preserve the the cause of action and I presume the receiver appointed by the Marion court will be discharged.

This action is not taken by any fac-

tion of stockholders and does not indicate any internal dissention or any-thing of that kind then ?" was asked. mit county court is in possession of the property and holds it. I have qualified as receiver; have given bond and now hold the property. I am not lawyer enough to say whether or not this appointment in Marion is legal and whether or not it could be enforced, but I do know that at the present time the Summit county courts hold the property and that I am in possession of it as the receiver appointed by that

THE COMING SEASON REV. DR. TALMAGE ON THE LESSONS

OF WINTER. A Service Appropriate to Cold Weather. muptations of the Long Evenings—The

Duties of Old and Young - to Eloquent

Washington, Dec. 8.—Today Dr. Calmage chose as the subject of his serman "The Opening Winter, ' Although the cold comes earlier or later, according to the latitude, this sermon is sooner or later as appropriate everywhere as it is in Washington. The text selected will be found in Titus iii, 12, "I have de termined there to winter."

Paul was not independent of the sea sous. He sent for his overcoat to Tross on a memorable occasion. And now in the text he is making arrangements for the approaching cold weather and makes an appointment with Titus to meet him at Necopolis, saying, "I have deter-mined there to winter." Well, this is the 8th day of December and the second Sabbath of winter. We have had a few shrill, sharp blasts already, forerunners of whole regiments of storms and tempests. No one here needs to be told that we are in the opening gates of the winter. This season is not only a test of one's physical endurance, but in our great cities is a test of moral character. A vast number of people have by one winter of dissipation been destroyed, and forever. Seated in our homes on some stormy night, the winds howling out-ide, we imagine the shipping helplessly driven on the coast, but any winter night, if our ears were good enough we could hear the crash of a thousand moral shipwrecks. There are prany people who came to the cities on the 1st of September who will be blasted by the 1st of March. At this season of the year temptations are especially rampant. Now that the long winter evenings have come, there are many who will employ them in high pursuits, in intelligent socialities, in Christian work, in the strengthening and annobling of moral character, and this winter to prany of you will be the brightest and the best of all your lives, and in anticipation I congratulate you. But to others it may not have such effect, and I charge you, my beloved, look out where you spend your winter nights.

Evil Allurements. In the first place, I have to remark that at this season of the year evil allurements are especially busy. There is not very much temptation for a man to plungs in on a hot night amid blazing gaslights, and to breathe the fetid air of an assemblage, but in the cold nights satau gathers a great harvest. At such times the casmos are in full blast. At such time, the grogshops in one night make more than in four or five nights in summer. At such times the playbills of low places of entertainment seem especially attractive, and the acting is especially impressive, and the applicase especially bewitching. Many a man who has kept right all the rest of the year will be capsized now, and though last autumn be came from the country and there was luster in the eve and there were roses in the cheek and elasticity in the step, by the time the spring hour has come you will pass him in the street and say to your friend: "What's the matter with that man? How differently he looks from what he looked last September." Slam of one winter's dissipation. At this time of the year there are many entertainments. If we rightly employ them, and they are of the right kind, they enlarge our socialities, allow us to make important acquaintance, build us up in our morals, and help us in a thousand ways. I can scarcely think of anything better than good neighborhood. But there are those entertainments from which others will come besetled in character. There are those who by the springtime will be broken down in health, and though at the opening of the season their prospects were bright, at the close of the season they will be in the hands of the doctors or sleeping in the cometery. The certificate of death will be made out, and the physician, to save the feelings of the family, will call the disease by a Latin name. But the doctor knows, and everybody else knows. they died of too many levees. Away with all these wine drinking convivial ities. How dare you, the father of a family, tempt the appetites of the young people? Perhaps at the outertainment. to save the feelings of the minister or some other weak temperance man, you leave the decenter in a side 100m, and only a few people are invited there to partake, but it is easy enough to know when you come out, by the glare of your eye and the : wuch of your breath, that

you have been serving the devil. The Evil of Appetite.

Men sometimes excuse themselves and say after late suppors it is necessary to take some sort of stunulant to and digestion. My plant opinion is that if you have no more self-control, then to stuff yourself until you digestive organs re fuse their office you had better not call yourself a man, but class yourself a mong the beasts that perish. At this sew on of the year the Young Men's Christum assecrations of the land send out carculars asking the pasters to speak a word on this subject and so I sound in vot rear the words of the Lord God Almighty, "We wite him that putteth the bottle to his neighbor's hips." Rejutee that you have come to the glad winter menths that remind you of the times when in your childhood you were shone on by the faces of father, mother, brothers, sisters, some of them, alast no more to meet you with a "Happy New Year" or a "Merry Christmas". But again and again have we seen on. New Year's day the sons of some of the best fam thes drunk, and young men have excased themselves by the fact that the wine cup has been offered by the lidies, and again and again it has been found out that a lady's band has kindled the sting man's thirst for strong drink, and leng after all the attractions of the heliday have passed that some woman courches in her rags, and her desplation, and her

wee under the aphifted hand of the drunken monster to whom she had passed the fascinating cop on New Year's day. If we want to go to rmu, let us go alone and not take others with us. Can we not sacrifice our feelings if need be? When the good ship London went down, the captain was told that he might escape in one of the lifeboats. "No," he replied, "I'll go down with the passengers " All the world applauded his heros-m. And can we not sacrifice our tastes and our appetites for the rescue of o hers: Surely it is I a very great eacratice. Oh, mix not? In the innocent beverage of the lobing the poison of adders'. Mrs and with the whote sugar of the cup the snow of this awful leprosy! Mar not the cluster of the cutlery of the

festal occurrency with the clank of a made min a couth. trass down the street and look into the paymbroker's window. Elegant watch, elegant fors, elegant flute, elegant shors, elegant scarf, elegant books. elegant menonics. You sometimes see people with pleased countenaires lecking into such a window. When I look into a pawnbroker's window, it seems to me as if I had looked into the window of hell! To whom did that watch belong? To a drankard. To whom did those ims belong? To a drunkard's wife. To whom did these shoes belong. To a dimilard's child. I take the times brazen balls at the decryay of a pawnbroker's shop and I clink them together, senndaig the knell of the drunkard's soul A pawnbroker's shop is only one of the eddies in the great terrent of municipal drunkenness "Oh, ' says some one, "I don't patronize such things. I have destroyed no yearg man by such influences of only take ale, and it will take a great amount of ale to intoxicate. ** Yes, but I tell you there is not a drunkard in America that did not begin with ale. Three X's-I do not know what they mean. Three X's on the brewer's dray, three X's on the door of the grushop, there X s on the side of the bottle. Three X > Lasked a man. He could not tell. I asked another what was the meaning of the three X's. He could not tell me. Then I made up my mind that the three X's were an alle gory, and that they meant 30 heartbreaks, 30 agenies, 30 broken up households, 20 prospects of a drunkard's prieve, 30 ways to perdition. Three X's, If I were going to write a story, the first chapter I would call "Three X's" and the last chapter I would call "The Pawnbroller's Shop." Oh, beware of your influence

Winter Temptations The writer season is especially full of temptation, because of the long evenings allowing such full swing for evilyoung man to go into his room and sit here from 7 to 11 a'clock in the even ing, reading Motley s"Dutch Republic" he will not do it. The most of our young mon are busy in offices, in facforms, in banking houses, in stores, in shops, and when evening comes they want the fresh air, and they want sightscring, and they must have it, they will have it, and they ought to have it. Most of the men here assembled will have three or four evenings of leisure on the winter nights. After tea the man puts on his hat and coat and he goes out. One form of allerement says, "Come in here." Satan says. "It is best for you to go in. I on ought not to be so green. By this time you ought to have seen everything " And the temptations shall be mighty in doll times such as we have had, but which, I believe, are gone, for I hear all over the land the prophecy of great prosperity, and the railroad men and the merchants, they all tell me of the days of prosperity they think are coming, and in many departments they have already come, and they are going to come in all departments, but those dull times through which we have passed have destroyed a great many The question of a livelihood is men. with a vast unifitude the great question. There are young men who expect ed before this to set up their household. but they have been disappointed in the gams they have made. They cannot supnort themselves, how can they support others? And, to the curse of modern society, the theory is abroad that a man most not marry until he has achieved a fortune, when the twam ought to start at the foot of the hill and together climb

That is the old fashioned way, and that will be the new fashioned way if society is ever redeemed. But during the hard times, the dull times, so many men were discouraged, so many man had nothing to do-they could get nothing to do-1 pirate bore down on the ship when the sails were down, and the vessel was making no headway. People say they want more time to think. The rouble is, too many people baye had too much time to think, and if our nier thants had not had their minds divertthis have been within the four walls of page, al with the scales of a monster and an ansane asylum. These long winter [have it stufied with all pride and beastevenings, be careful where you spend them. This winter will decide the temporal and eternal descray of hundreds of men in this audience.

to the top

Attractive Bonies

Then the winter has especial temptations in the fact that many homes are pecultarly unattractive at this season. In the summer mentles the young man can sit out on the steps, or he can have the evenings being so short, soon after gaslight he wants to represent how. But there are many parents who do not nuderstand bow to make the long winter evenues attractive to their children. It is amazing to me that so many old pool Frenchy ple do not understand voting people. To hear some of these parents talk you would think they had never themselves hern young and had ben born with spectacles on Oh, it is dolorous for Lundreds are falling? I will tell your to II o'clock at night and to hear parents grean about their ailments and the nothingness of this world. The nothing say, "Good morning! Glad to see you.

to make this world, and he has allowed A 6,000 years to hang upon his holy neart, and this world has shone on you and blessed you and cares-ed you for these 50 or 70 years, and yet you dare talk about the nothingness of this world! Why, it is a magnificent world. I do not believe in the whole universe there is a world equal to it, except it be heaven. You cannot expect your children to stay in the house there long winter even ings to hear you denounce this star lighted, sun warmed, shower bantized, flower strewn, angel watched, God inhabited planet.

Oh, make your home bright! Bring in the violin or the picture. It does not require a great salary, or a big house, or chased silver, or gorgeous upholstery to make a happy home. All that is wanted is a father's heart, a mother's heart, in sympathy with young folks. I have known a man with \$100 salary, and he had no other income, but he had a home so happy and bright that, though the sons have gone out and won large fortunes and the daughters have gone out into splendid spheres and become princesses of society, they can never think of that early home without tears of emotion. It was to them the vestibale of heaven, and all their mansions now and all their palaces now cannot make them ferget that early place. Nake your homes happy. You go around your house growing about your rheumatism and acting the lugubrious, and your sons will go into the world and plunge into dissipation. They will have their own ricumatisms after awhile. Do not forestall their misfortunes. You were young once, and you had your bright and jevous times. Now let the young tells have a good time. I stool in front of a house, and I said to the owner of the house. "This is a splendid tree." He said in a whiming tone, "Yes, but it will fade." I walked around in his garden and said, "This is a glorious garden you have." "Yes," he said. "but it will perish." Then he said to my little child, whom I was leading along, "Come and kiss me." The child protested and turned away. He said, "Oh, the perversity of human nature!" Who would want to has him? I was not surprised to undout that his only son had become a vagabond. You may grean people out of deceney, but you can never groan them into it, and I declare in the presence of these men and women of common sense that it is a most important thing for you to make your homes bright if you want your sons and daughters to turn out well.

The Young and the Old.

Alas, that old people so much misnuderstand young folks! There was a great Sunday school anniversary, and there indulgences. You can scarcely expect a were thousands of children present-indeed all the Sunday schools of the town were in the building, and it was very uprostions and full of disturbance, and or John Fester's essays. It would be a the presiding officer on the occasion very beautiful thing for him to do, but came forward and in a very loud tone shorted, "Silence!" and the more noise the presiding office made, the more noise the children made. Some one else rose on the platform and came forward and with more stentorian voice shouted, "Silence" and the uproat rese to greater height, and it did seem as if there would be almost a riot and the police have to be called in, when old Dr. Beaman, his han white as the driven snow, said, "Let me try my hand." So he came forward with a slow step to the front of the platform, and when the children saw the venerable man and the white hair, they thought they would hush up that instant and hear what the old man had to say. He said: "Boys, I want to make a bargain with you. If you will be still now, while I speak. when you get to be as old as I am I will be as still as a mouse. 'There was not another whisper that afternoon. He was as much a boy as any of them. Oh, in again and make all our homes happy. God will hold you responsible for the influence you now exert, and it will be very bright and very pleasant if some winter night, when we are sleeping under the blankets of snow, our children shall ride along in the merry party and hushing a moment into solemnity, look off and say, "There sleep the best father and mother that ever made a happy new year." Arm yourself against these temptations of December, January and Rebruary Temptation will come to you in the form of an angel of light.

I know that the pacts represent salan as borned and hoofed. If I were a poet and I were going to picture satan, I would represent him as a Luman being, with manners polished to the last perfection, hair falling in graceful ringlets, eye a little bloodshot, but floating in bewitching languor, hand soft and dianamided, feet examinitely shaped, voice near was a flute, breath performed as thanh nothing had over touched the has but belie of a thousand flowers. ec versation facile, carefully toned and ed many of them would long before the poly. But I would have the heart I not of desire and hypecrisy and death. and then I would have it touched with the near consensation mental the eves became the cold orbs of the adder, and to the lip should come the foam of raging interceation, and to the foot the spring of the panther, and to the soft hand the change that would make it the clemmy hand of the wasted skeleton. and then I would suddenly have the a boughet in the vase on the mantel, or, | beart break out in unquenchable flames, and the affected lisp of the tengue be come the hiss of the worm that never cos Bat antil disenchanted, ringleted and diamended and flute voiced and conversation facile, carefully toped and Words of Warning.

Ob, what a beautiful thing it is to temptations of city life incorruit while young people to sit in the house from 7 history. You will move in respectable circles all your days, and some day a friend of voor father will meet you and such oursplacing. It took God six days like your father for all the world. I lister.

thought you would turn out well when I used to hold you on my knee. If you ever want any help or any advice, come to me. As long as I remember your father I'll remember you. Good morning." That will be the history of him dreds of these young men. How do I know it? I know it by the way you start. But here's a young man who takes the or posite route. Voices of sin charm him away. He reads bad books, uningles in bad society. The glow has gone from his cheek, and the sparkle from his eye, and the parity from his oul. Down he goes, little by little. The people who saw him when he came to town while yet hovered over his head the blessing of a pure mother's prayer and there was on his hips the dow of a pure stater's kiss, now as they see him pass cry, "What an awful wrock" Cheek bruised in grogshop fight. Eye bleared with dissipation. Lip swellen with indulgences. Be careful what you say to him, for a trifle be would take yoar bie. Lower down, lower down until, out-

east of God and man, he has in the asylum, a bletch of loathsomeness and pain. One moment becalls for Gel and then he calls for runn. He prays, be curses, he hoghs as a field laughs, then bites his mass into the quick, then puts his hands through the hair hanging around his head like the mane of a valid beast, then shovers until the cot shukes, with unutterable terror, then with his tists Lights back the devils, or clutched for sergents, that seem to wind around him then awful folds, then asks for water, which is instantly consumed on his cracked lips. Some morning the surgon going his rounds will find him dead. Do not try to comb out or brush tack the matted locks. Straighten out the limbs, wrap him in a sheet, put him in a box, and let two men carry han down to the wagen at the door With a piece of chalk write on top of the box the name of the destroyer and the destroyed. Who is it? It is you, oh, mur. if, yielding to the temptations of a dissipated life, you go out and perish There is a way that seemeth bright and fur and beautiful to a man, but the oud thereof is death. Employ these long nights of December, January and February m high pursuits, in intelligent ocialities, in innocent amusements, in Christian work. Do not waste this winter, for soon you will have seen your last show show a and have gone up into the companionship of bina whose raiment is white as snow, whiter than any faller on earth could whiten it. For all Chaistian hearts the winter nights of earth will end in the June morning of heaven. The river of life from under the throne never freezes over. The foliage of life's fair tite is never frostbitten. The festivities, the hilarities, the family givetings of earthly Christmas times will give way to larger reunion and brighter lights and sweeter garlands and mightier joy in the great

A Historian's Privilege,

holiday of heaven.

Mme. Novikoff was at a Sanday party at Holland House in the days of its late mistress, and was seated between Lord Houghton and Mr. Kinglake. The latter observed, in answer to a remark of the Russian lady, that historians were sometimes very badly treated. "What do you mean?" asked Mme. No-vikoff, rather puzzled. "Well," continued Kinglake quietly, as if discussing some grave topic, "just take my case, for example. As you know, I am supposed to be a historian. The other day I got a letter which really touched me; it was signed by two people, husband and wife, and came from one of our colonies. They described their grief. Their only child, it seemed, had been killed in the Crimea. For some incomprchensible reason they were most auxthese approaching holidays, let us turn | ions to have 'their beloved darhing' menback our natures to what they were troned in my history of the Crimean years ago and be boys again and guls war. Surprised, but flattered, I replied by return of post-a thing I have not done for many, many year-that I would be happy to do my best for their comfort provided they sent me the necessary particulars. Again a letter written and signed by both mother and father arrived, but with the following cruel addition: 'We have no particulars whatever. Ho was killed on the spot, like many others, and anything you may kindly invent will be welcome; we leave it entirely to your judgment. " -New Review.

Rents In London and Paris.

Some interesting figures concerning house rent in London and Paris have recently been published in Le Journal des Debats. It appears that in Paris its population of 2,250,000 pays nearly as much rent as Lendon, with twice the number of inhabitants. The 2.250,000 Paristans have only \$3,000 dwellings to live in, while the number of houses that the 5,000,000 Londoners occupy is nouly ten times as many. In Paris. where the people live in flats, there are on an average over 270 persons residing in each house. In London the average is only seven persons to a house. Yet for much less comfort and space the Parisians have to pay little short of double the rent paid ly Londoners. The total annual ient of Paris, says Lu Journal, is now 775,000,000 frames, or \$155,000,000, while Londoners, who are twice the number of Parisians, only pay \$185,000,000 for far more comfortable dwelling accommedation. The average rent paid by Londoners is between \$35 and \$10, while in Paris it is nearly \$70.

As Exciting Life.

Sit J. B. Thurston of Figi fame has led a highly exciting life. He was a storekeeper in the "bush," when he was prevailed upon to take a trading expedition to the south Pacific. The vessel in which he traveled was wrecked see a young man standing up and these in a terrible hurricane, and after some hairbreadth escapes he succeeded, with a few others, in reaching Гін. A пл tive monarchy existed at the time on the island, and vonug Thorston was installed as a clerk in the British coastilate. After a time the king-Thakomban ness of this world! How date you talk | You so in to be prespering. You look | I by name—appointed him prime min-

THE AFTERNOON TEA This English Function Has Latterly Ma-

terially Changed. It is the general complaint that both at afternoon teas and at homes the teais made disagreeably and permiciously strong. Formerly such a complaint was never heard; a strong cap of tea was the fashion, all liked it, and thought themselves ill treated if anytning else were offered them; now it is quite the other way, and a hostess who studies the fashion of the day and the tastes of her goests makes a tale of asking whether weak or strong tea is preferred before pouring it out, and then adding hot water to taste, while others train then servants, at some trouble to themselves, to bring in the tea the moment it i- made.

Now is the time for some spirited patentee to preduce an invention that could be applied to our dear old silver tempors or to modern china ones to hold the tea haves and pretent their striking | cultarity of this pioneer was that his to the bottom of the teapot, and thus browing the harmful solution that is accreduce with bringing about such illeffects. An approach to something of this sort has been attempted in the little Japanese teapors with china stramers, but these are too small for large teapots, and something further, which could be adjusted to any sized teapor, is required.

Half past 4, or even 4 o'clock, is now the regulation teas hour, and when people adhere to the old fashioned custom of giving 5 o'clock tea their friends regard at in the light of a grievance, es pecially in the country, when, after a long drive or bicycle ride, the half hour's delay in the accustomed tea hour makes all the difference to exhausted nature, for tea is allowed, even by its opponents, to have a "stimulating and restorative effect on the constitution? in spite of the "subsequent depression" and the "deleterious" results

Afternoon tea is now very justly styled a mear, as so many sebstantial things are given in the way of sandwiches of many varieties, of potted game and chicken, potted fish; also of tomatoes, evenmber and cress, etc., in addition to hot scones and tea cakes, or muffins and buttered bans, rich cake, iced and ornamented cakes, etc. No: only at large at home teas are these given, but at the usual afternoon drawing room, and, as a rule, the appetites of the cuests are found equal to the occast n.

The lateness of the dinner hour is doubtless the excuse and the reason for the teadiness shown to eat and enjoy these dangues thus early in the afternoon. Be this as it may, a substantial afternoon tea has become the fashion, and few wish it otherwise, occasionally one comes across a man or a woman who avers that he or sho never "touches tea." which in this case bears out the medical strictures upon this beverage; to some it is almost a poison, and to others it is an immeressary luxury, not to be indulged in .- Londen Queen.

Roman Taste For the Country.

Hadrian's "villa," near Tivoli, which was seven miles round, and Diocletian s 'retreat," the ruins of which form the town of Spalato, show the Roman taste for the country run wild and grown monstrous. After the empire fell, for awhile terror and inscurity drove men to stay in fowns when they could not build for themselves fortified castles, the antithesis of the villa. But with the first opportunity the old love reappeared. In other countries the castie gave birth to the exclusive country seat. where the great noble lived as a king The town house, if there was one, was a secondary affair, often there was none. as is the case to this day in Austria and Hungary In Italy, on the other hand, there was a reversion to the Roman or tangement; the house in the city was the most important, but it was supplemented by more or less numerous, more or less splendid, villas. Not to have two houses was destitution; hence the erovm of villas around any characteristically Italian town-Breseia or Vicenza or Treuto.

The untraveled Italian looks in amazement at the well to do Englishman who admits that he has only one home. An Italian 'person of quality' who was obliged for the sake of economy to spend all the year at his villa might complain, as Browning makes him complain, but were he ferced to pass 12 months in the vaunted city square there would possi bly be stricted instead of sight. This time the piet, who dived deep in the Italian mind, only brings to the surface half a truth. - Contemporary Review.

Paying For the Hoper.

In Chira it is believed that people should pay according to their means The one barber in Peking who understands the foreign mode of hairdressing charges a foreign minister half a dol far, a secretary of legation 25 cents and an unofficial foreigner 10 cents. Natives pay about half a cent for the same serv ice. So says Mr. Holcombo in his book. 'The Real Chinaman," and he adds this bit of personal experience: In passing through Japan I once had

occasion to empley a Chinese chiropodist residing there. His charges, so he declared, were 5 cents to his fellow Clubese, 10 cents to an ordinary Japanese and half a dollar to all other foreign ers In the course of the conversation. while he was at work, he said

"I bear that our Climese minister came to this hotel today. Do you know when he came to see?" "Oh. yes." said I, "he came to call

on the "Then you must be an official " said the Chinaman

I modestly admitted such to be the fact, and the conversation drifted to other subjects. When the man's labors were concluded, be demanded a dallar, m the face of his own statement that his regular charge to all foreigners, t. cepting Japanese, was 50 cents, and he enforced his claim by this argainent:

"Si seey that China minister come see you, you b'long all same he You b'long same he, you maker pay \$; aii same. That b'long ploper.

"DIED OF CHOLERA."

the History of Eighteen Craves In the Country Churchyard at Sandy Hill. In the old graveyard of the Sandy Hill district, in the town of Dansville, are 18 graves, the time stained stones of which, below the names and dates inscribed thereon, bear the words, "Died of Cholera." The time covered by the dates is from Aug. 24 to Sept. 5, 1884 -12 days. The settlement thereabout, in 1834, was an isolated one among the pines that then covered northern Stenben county, and composed of not more than three-core souls. The story of how it fell victim to the sconrge that carried one-third of its population away is fold

by an old resident.

Among the earliest settlers in the Sandy Hill district was John Brail, who came with his wife and seven children in 1817 and began clearing up a farm. He was a Pennsylvania German, eccentric. but kindly and lovable. A physical peteeth were all double, every one of them being sound when he died at the age of 90 In 1834 a great many Germans began settling in that part of Steuben county. They came from New York up the Hudson river to Albany, thence to Buffalo by the Lite canal, and the rest of the way as they could.

In the summer of 1834 five Germans came to the Sandy Hill district, where they had purchased land of agents and became guests of Brail. They had walked from Buffalo, where they had left their families. In the kindness of his heart Brail sent teams to Buffalo to fetch the latter in. He had a vacant loghouse on his farm, which he placed at the disposal of the emigrants until they could put up houses on their land. Mrs. Brail helped some of the women m washing clothes the day they arrived.

That evening she was taken violently ill and died in great agony the next day, Aug. 24. Doctors had been summoned from Dansville. They said Mis. Brail had died of cholera morbus. Some of her neighbors misisted that it was a case of malignant cholers and forcade a public funeral Mrs. Brail was buried on Thursday On Saturday two of her daughters were prostrated with the disease. One of them died the same night. While her plain hemlock coffin was being made a brother was seized with the malady and shut himself in the barn, where he died while his sister's body was being taken to the graveyard. One by one the emogrants fell victims to the disease. A Mrs. Keich and her children died within three days. Between that time and Sept. 30 eight others fell victims to the plague. All were buried, after the funeral of Mrs. Brail, with the clothes they were or wrapped in the bedding on which they died. It was afterward learned that on the way from Albany to Butfalo a sister of Mrs. Kerch died after symptoms such as had attended the victims at Sandy Hill. She was buried, but her clothing was kept and placed in a trunk. That clothing was some that Mrs. Brail assisted in washng on the arrival of the emigrants at the Brail tame.

Near by the Brail farm was the Stone farm. The Stones came from Massachusetts. Mis. Stone brought with her the seeds of a sweet apple that grew in an orchard on her father's farm in that state. She planted them and raised a fine orchard of the same variety of apples. In the season of 1535 the trees bore apples that were as sour as they had been sweet before, and their fruit was sour ever afterward. One of those trees of that original orchard is standing yet and bore apples for the last time hree years ago. They were sweet-the first sweet apples it had borne since 1874.—Bath (N. Y.) Letter in New York Sun.

A Double Dinner.

A distinguished judgo frequently brings friends home to dinner quite unexpectedly. This habit is certainly hospitable, but it is not popular with wives. One court day the genual judge in-

vited a number of this legal brethren to ding with him, serenely obnitions of the fact that his vitte was totally nnprepared for such an incursion. The lady, however, was equal to the occasion. She did not fass and frown and male things unpleasant all round. On the contrary, she accepted the situation with a good grace and made the best of it.

The modest meal was served as promptly as possible, and though it was not a sumpluous banquet it was at least agree, ble to guests and host. When damer was over, just before leaving the pentiemen to their wine and cigars.

No. 3: [10.5] am [No. 12. [10.5] am [No. 1] [10.5] am [No. 5] [10.5] are public leaving the leaving and cigars. least agree, ble to mests and host. When the gentlemen to their wane and cigars. the lady rose and said: "Gentlemen, I wish to say one word.

You have districted by with the judge; will you do me the honer of dining tomorrow with me?"

A chorus of applause greeted this speech, and next day the lady welcomed ter husband's friends to a dime, a worthy of such an accomply-hed Lostess.- Ex change

Unconventional Preacher of St. Albana The nuconventional preacher at St Albans, Holborn, has been giving his congregation some seasonable advice as to the kind of dinner parties they should give. "D) net." Father Stanton said the other day. "give dinners at 2 gamcas a head to rich receive who have plenty of ford at home and do not aprecrute your attentions, but spend the 250 which the dinner would cost you on a feast to the poor, who are in want of the necessaries of life and who would nor say at the end, 'How thankful we

Churches and Electric Light,

Gazette.

are that this is over. "-Westminster

The congregation of sacred rites in Rome was recently asked to decide whether electric lights could be used for ensupating darkness and for increasing the executor attractiveness of churches." Its answer was as fellows: 'For worship, no. But for dispelling derkness and illuminating churches more brilliantly, yes: with caution, however, so that the manner may not produce the appearance of a theater."

THEY ARE STYLISH, AND NOTHING IS HANDSOMER OR BETTER LIKED.

They Come In a Variety of Shades-A Chestnut Brown Suit-Coats, Capes and gold clasp and chains. These charelaines Cloaks-Some New Hats-An Odd Com-

[Copyright, 1866, by American Press Associa-

tamette mede has been softened a little here, changed a little there, and with much taste embodied with the 1830 vogue of a year ago. Now little is to be denied, and great latitude is permitted. Phere is scarcely a leading style of the last decade that has not some reminder in the garments of today. This permits every one to have what suits her figure, style and complexion best and to keep up with the endless fashionable proces-The very woolly, fuzzy and hairy

fabrics are in great vogue for street and "fatigue" gowns, but for a really elegant costume for home or visiting nothing is handsomer or better liked than line broadcloth. There are two varieties of this. Upe is rough faced and the other has a sort of fluish resembling satin. It is very rich and Instrous and could not be improved upon for appearance or solicity. It is shown in green of perhaps 20 shades, belietrope, prune, and in very many shades of brown, from brick (eler to seal, with some warm shades of chestnut merdore and rebacco. Perhans the invorite is the chestnut. I noticed a rich wood brown suit vesterday of this quality of cloth, with an inch wide blas band of tea rose green velvet around the bottom of the skirt. The cuffs, collar and bolt were of the green velvet. It was a very pleasing combination.

A chestnut brown suit was much admired. This has a band of wool astrakhan around the bettem of the skirt six inches deep. The basque was cut with forms in the back and was droped a little down the front to the waist line. The whole skirt to the basoue was covored with astrakhan wool. There was a high turnover collar, with two bands and trimmed by an enormous flaring down the front of the waist. The sleeves were ample leg o' mutton shape. There was a hat to match of black silk beaver, with a large bow of brown ribbon. This maile a very refined costume. Helictrone cloth was used to make a dressy afternoon gown suitable for home and visiting. This had a narrow band of velvet were three chonx of canary velvet, and ent in scallops all around the bottom back of them rose four black ostrich blouse of helictrope velvet richly orna- brim upholding an immense bow of corn - delight. mented across the bust by a fancy gal- flower ribbon. In the center of the bow cloth. I saw another gown exactly like

The person that loves have fur borderings or very full tippets his piano will not cover its top with of estrich flues around the neck. It re- brie-a-brae and music. The pressure on quites just such trimming to show up the pedal makes a decided difference in the full beauty of the velvet and its the tone produced. With a shoe that is handrwork.

The box coat finds still some votaries. but the general favorites in the way of wraps begin with the short jackets and end in the long clock ulsters. These may be simple or very claborate and luxurious. The lines of capes, both of counties in western Pennsylvania. She fabric and for, are so many that it would became familiar with law and law pracbe impossible to describe them all. The tice, and at length the bright thought newest thing is the long, loose sack, struck her that she herself would make which has nothing to recommend it but 'style." One of these was made of cordingly she began her studies, which black cudora cloth as to the fronts and she has completed and been minitted to undergram pieces. There was a square practice. Legal reporting is one of the vake across the back. The plaits were best of stepping stones for women lawmade of finely crinkled crepon. The collar was high and had a ganffering of the crepon around it. Down the front there was one row of buttons of enor-

mons size, sat diagonally. While there are some corsages made separate from skirts, they are not the ruge, as they were a few months ago. Almost all dresses are made in one mate. Sprinkle on it salt and pepper, squeeze rial, though there are combinations of over it some drops of lemon juice, dip it every kind. Tight waists, rounding at in melted butter, and broil over clear the line, are seen everywhere, some with | coals; quickly at first and then very Leits and some with nothing but narrow piping at the edge. There was a very pretty dress of moss green faille, the skirt quite plain. The sleeves were shirred in a: the shoulder and drooped in a graceful puff, though they were red and milky white, is not only beautireally gigots. The stock was of green ful, but accords with the chameleon idea from of velves do un the front of the viot in dress matericia.

BROADCLOTH. GOWNS. Fight waist. On each side of this there was a line of narrow puffed ribbou of the same shade as the dress. There was a figure outlined on the waist by means of this same puffed ribbon. A velvet ernsh belt was added. To this hung a white Eid chatelaine bag, trimmed with are quite often seen. They hang from a funcy book which is caught in the belt. The chains are 10 inches long.

A gown which afforded a bright spot of color was worn by a young lady at a The past three weeks in New York home reception. The gown itself was of have been most brilliant in the new marine blue sorah serge. Down the two hats and bonnets, wraps and gowns dis- from seams there was a gold braid, edged played at the opening functions of this with a very narrow black velvet ribbon. season. Taste and labor have combined. The underwaist was a blouse of carwith heautiful materials, and the result dinal surah, barred meross the front by has been more than satisfactory. The alternate rows of gold braid and ribbon. styles, too, have been modified some- Over the blonse was an Eton of the blue what from the first models sent for the serge, and this was slashed at each side, season. The Louis XVI and Mario Au- where the dart would be, and garnished

with black sontache and gilt buttons. There were buttons and loops on the sleeves. The jacket was slashed in the back, and had quite wide lapels in from. The high dog collar was of the cardinal surah, and there was a tie of black ribbon in a very large knot under the chin. There was a draped belt of black ribbon. This made a very taking ontfit for a young lady.

Some of the new hats are simply ashigh. It is encircled by a wide ribbon painted by an artist who had no palate. edge of the brim there was a row of oon trimming in humaning bird colors, on one was placed a pink velvet rose with outspread wings, and curled over, with one stone. the wings were two rich black ostrich tufts of feathers. It would almost seem as if everything goes.

HENRIETTE ROUSSEAU.

Piano In Small Partor.

In a small parlor is almost always found-not a grand, but an upright ! that, ecoped up, to make sure it stays in [its place. Then, too, the piano is probably found covered with all sorts of bric-a-brac, or piled up with music, and it is undoubtedly standing on a carpet

going, says: The piano should be if pos-Fible from 6 to 12 inches from the wall. vices. A superb velvet mantle had a ding under it where the piano is to straggling vine in saddler's silk worked stand. The more solid the foundation sing in a corner against the wall. The a "snug fit" the pressure is more firm and the tone more full and resonant.

Legal Reporting For Women.

Miss Suzaune S. Beatty was formerly stenographer in the courts of several just as good a lawyer as anybody. Acyers. Many who at first had no thought of entering the profession regularly have thus been induced to do so and are now in good practice.

Box to Broll Fish. After the fish is cleaned, washed and wiped, split it lengthwise if it be thick. slowly, allowing ten minutes for each inch of thickness. Serve with butter ream.

A FEW RULES BY NYE ME HAS TRAVELED ABROAD AND CAN

ANSWER QUESTIONS. He Tells About the Dake of Devenshire,

Writes of Wastminster Abbey and the Mind About Some Matters of Etiquette.

[Copyright, 1895, by Edgar W. Nye.]

The following answers to impatient correspondents are printed in order that the general public may share in the rich intellectual feast and the priceless wisdom therein contained:

Eli Yelton asks if the Duke of Devonshire is of good family. He is. He is also in good circumstances. He is about the only well to do duke that I have over known. I was at his place-one of his places—once for over a week. He enjoyed it hugely. He was on Mont Blanc at the time.

His house is modeled after a Roman villa and extends away back into the past. He has brought many things from Rome for the grounds, among other things a very beautiful gateway, which has been set up as it stood formerly in

the time of the Cæsars. He has also a tonishing. Those with the high crowns number of carved stone seats from the are not handsome, though called stylish. Roman senate. One is a contested seat They must be very stylish to make up from that body. It it still in a good state for the lack of beauty. There is one of preservation. The decorations on the where the crown is quite four inches coilings are very beautiful. They were

In Ireland I met an artist with a cork bow, with stiff loops. Along the under arm. He also had two cork legs. He had a cork sole. He was born in Cork. He ruby beaded passementerie. The hat also had long, umbrageous whiskers. I was fine slate felt. A very becoming hat | thoughtlessly irritated bim by asking was made of seal brown velvet, laid in him if I could have some seed whiskers two folds around the brim, which from him next season to sow with my turned up gracefully. In front there blue grass. The Duke of Devoushire does not care much for humor, but when he does he likes his jokes as he does his of the skirt. The gigot sleeves were tips. Some of the brims are perfectly game—a little overdue. A joke at 30, 60 quite plain. The waist was a loose flat, with scarcely any crown at all, the or 90 days seems to give him the keenest

Elvira, North Adams, Mass., asks if people are really buried in Westminster Around the waist was a ribbon belt, and a green carnation—a queer medley : Abbey. Yes, Elvira, a great many of with a windinill bow, and there was a of color, as the hat itself was gray, but them indeed. I attended divine worship black velver stock collar, with a black not altogether unpleasing. A curious, there once and found that a whole famlace plastron over white silk. There was hat was made with a beefeater crown lily had been buried in my pew. They a sort of polka to the basque, made of the of dark blue velvet. The brim was of combine economy with grief in this way, knitted chenille in the same shade, and it is said, and pave the church with this was plaited very full all around. gravestones, thus, as a friend of mine On top was a green and scarlet parrot once said, virtually killing two birds

Some of these epitaphs are interesting reading, and especially those of the nobility. Many kind things have been said by both press and people regarding my lying, but when I read these epitaphs on the nobility I saw at once that I had

been a very much overestimated man. There is no place where cemetery piano. The piano is generally found | room is so valuable perhaps as in Westwith its back flat against the wall, and | minster Abbey unless it be in the cataif there is a niche it will be found in combs of Rome, where the bones of those who have passed on to spirit life are used for decorative work. In all sorts of designs one sees this odd material ar ranged like lagge flowers and vines, trees, and so forth. They are used, too, ande soft by padding.

In designs for frames, among other things. Vertebrae and phalanges are used to make the molding of the frame, while the larger bones are used to represent vines or palms, etc. A cabinet photograph or large crayon portrait of his wife's mother, framed in reveres of the same, must be a great comfort to the

Roman sen-in-law. Georgiana L. asks if the Scotchman at home is so slow in grasping the point of a joke as he is reported to be. I can hardly say in a general way, but sometimes I have thought there were instances of that kind. In Glasgow once I saw a milkman going by early in the morning. From my fifth story window I hailed him and asked if he had milk in his wagon. He turned about, and, carefully locating my window in his mind, ascended the five flights with his largest can. Then he tried to force me to take some of his goods just because I had asked him simply whether he had railk in his can or not. Many of them surely are a very presaic and wholly unimagina-

tive people. Montclair Nesbitt asks if (1) the are of the umbrella in the British isles is more general than in this cometry: (2) also about pronunciation of American names by Britona.

(1) Yes, it is, most assuredly. If you see two men walking together in London, one with an umbrella and one without, you may be almost certain that the man with the umbrella is an Englishman and the other an American, but in a few moments the whole thing may be entirely reversed if the American gets sequainted with the Briton.

"The Englishman," said a friend of mine once. "uses his umbrella for evarything almost. It is difficult to imagine any of the affairs of life into which the umbrella does not enter. He uses it to walk with and to point out things with. He uses it to examine other things with: to call attention; to fight with; in making and breaking friendships. He nodges his friend with it to punctuate a joke. examines his friend's condition when 111 by means of it, and after death investi- being in a harry."—Chicago Tribune.

gates the cause of death. Then at the grave he need it to turn the last sod. (2) Regarding the pronunciation of American names by these who have not been in America. I must say that it is one of the most enjoyable features of foreign travel. To hear a citizen of Glasgow or Manchester struggle with such a name as Chicago or Michigan or Connecticut is equal to a summer in the Holy Land for real enjoyment. When asked which I regarded as the most peenliar American unme, and I answered Yuba Dam, I came pretty near having to call out the troops.

Mand Estee. -(1) You should not be too proud because you can trace your aucestors back so far, be uso any one can do that. If they are insufficiently fed, you can of course trace any ancestor's back as far as von can see it.

(2) Yes, the fend is a great boon to some of the mountain people of Kentucky, and as it lasts till one entire family kills the other, and there are generally 16 in a family, by the time the last one of that crop is wined out the new crop is almost big enough to kill.

A law is to be passed in Kentucky this winter to protect these people between May and October.

R. S. V. P.-No, you need not part the tails of your cont when you sit down. No man who does that will ever get his name in the encyclopedia. You also made an error in judgment when you ected as best man and combined a silk hat and feunis shoes. You must never do that again.

The authority you give for wearing your dress suit always after 6 p. m. does not mean to say that you should do so after retiring. No, thank you, I do not care for a gold

neaded | cane even as a mark of esteem. I find that I can kill a dog fully as well with a plain broom hundle.

Auxious Mother. - No. Good author ity says you should not teach your children to say "Yes, sir," and "No, sir." and "Yes, ma'am," and "No, ma'am. Let the servants do that. Good, frank, straight out answers from a child are all that modern etiquetta requires in children. You did wrong in shutting up your little boy in the cellar all day because he declined to say "Sir" and 'Ma'am." So you have something now to be sorry for all your days. He would not have fallen in the soft scap barrol had you not put him down there in the dark, and thus had you not been un-

reasonable with him you would have had your little Edward with you today. Everett House -When any one says, 'I beg pardon," the person addressed should not say "Cortainly," because that just simply gives permission for the first one to go on asking putden to his heart's content, but he should say "Granted, or "That's all right," or "It never touched me," or some witty thing like

You lost your bet. A shop is a place where things are sold, and a store is one where things are stored.

One of the Four Hundred, as he is called, says that damn is the only proper word for a gentleman to use in swearing. Others are objectionable. So it seems there is an etiquette even-of profauity -among these educated posts.

You did wrong in tipping up your soup plate so as to get the last drop, especially after your host had intimated that there were some more things to eat in the house.

You also did a foolish thing in using both knives so early in the meal that you had to put down your buttery blade on the cloth. You should have all your wits about you at such times or you will not be again invited out to dinner for quite a spell.

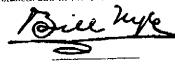

No, you should not get up and go out of a theater at all if you are obliged to disturb other people in doing so unless it is for the most urgent cause, such as a paralytic stroke or the burning of the building, and even then you should if possible await your turn at the are es-

cape. If you must pass out before other people, do not face them in doing so ont turn your back to them, and you will get out much easier and be less apt to get shot.

The man who takes a lady to any place like a concert or theater, and who goes out leaving her at any time during the performance, deserves to find on his return that she has gone away with another gent.

The above rules will be found efficacious under the most distressing circumstances and in all climates

The Real Victim-"Great Scott, doctor!" exclaimed the man in the chair. "You've pulled out the wrong tooth!"

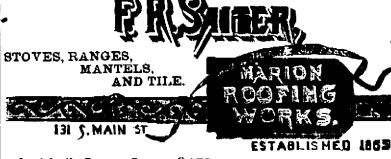

"So I have," replied the dentist regretfully. "Well, I can't charge you snything for pulling that tooth, and I'm out just \$1. That's what a man gets for

D. A. FRANK & CO.

REV. W. E. THOMAS,

Pastor of First Presbyterian Church,

In the course of his Sunday morning sermon took occasion to say that "Christian merchants should practice telling the truth in their advertisements." So say we. Our sentiments to a dot. We founded our business on this principle and have succeeded. No one knows better than we the disagreeable character of deceitful advertising. We come in contact with it and meeting it with a shower of truths that challenge investigation at all times.

Our Opening

(Our Christmas Inaugural)

Was a marked success. The crowds came like a flood, they enjoyed the musical treat, they admired the holiday goods, they bought delightedly. It could not have been better. Now watch the small competitors follow the example.

A STORY OF FINE SILKS:

A French manufacturer this year designed a great many new patterns in medium and large brocaded silks---black gros grains with satin figures. Paris raved and bought, and a few were imported here. They sold in New York at \$3 to \$8 per yard. A cunning American manufacturer saw his opportunity and immediately copied the patterns. The American copies sold in the cities more rapidly than they could be made. In August our buyer, while in New York, contracted a quantity of these patterns to be delivered at the earliest possible day. They began coming, piece at a time, some pieces lasted three days, others were sold the first day in. When in New York again, last month, our buyer plied all his persuasive powers for another lot and secured six pieces; they came and sold rapidly.

Ten pieces more came today. Tonight and Tuesday is the only time to see the full assortment. Some may last longer, but all won't. Caution now, don't wait a day, for the opportunity will be gone. Let not the day pass without availing yourself of this rare chance.

Our Holiday Dept.

Third Floor-Take Elevator.

It's open in full force. and pleasing the crowds.

Jewelry and Silverware

Are here in quantity. You hear talk from jewelers about "dry goods jewelry." There is a difference—in the price. We sell it cheaper. We invite your examination. We can't afford to sell you goods that are not just right, and we won't. These goods are all right.

evening at 6:30 o'clock, by Rev. J. L. Hillman. They will make their home n Marion.

Eugene Bowen is preparing to make the new assessment for street paving under the supreme court decision. The work is only preliminary as yet for the reason that further information is desired as to what the court means. Judging by the present diversity of legal Declaring the Intention of Council in opinions the interpretation is about as clear as mud.

Last Saturday Dan Babst, Jr., qualified in the court of common pleas in i the Nypano receivership case by giving a bond in the sum of \$150,000. The bond was signed by Dan Babst, Jr., as principal, and Adam Huffman, Jr., D. . Sink, Peter Bauer, W. McCully, W. R. Boyd, T. P. Kerr and George Stoll, of Crestline, and I. B. Carlisle, of this
